REFRACTORY MATERIALS. SMELTING-ORIENTED.

PT Metro Securo Indonesia (MSI) is a specialized supplier of high quality refractory materials for industrial applications. With a strong understanding of thermal processes and furnace operations, we provide reliable refractory solutions designed to withstand extreme temperatures, corrosion, abrasion, and demanding operating conditions.

Our commitment to quality and supply reliability ensures that clients receive high-performance materials tailored to the requirements of furnaces, kilns, incinerators, boilers, and other thermal processing units. We are proud to support Indonesia's industry and manufacturing sectors through dependable products and responsive technical support.

MSI also maintains a supply collaboration with **Kerui Refractory®** to strengthen product references, application discussions, and supply support for selected refractory materials.

WHY MSI EXISTS

MSI was built around real industrial demand for selected refractory products where responsive supply coordination and practical technical-commercial support create value.

PARTNER-BASED SUPPORT

MSI works with **Kerui Refractory®** as product and reference partner for selected refractory material support, discussion, and delivery coordination.

VISION

To serve as the trusted refractory materials partner for Indonesia's high-temperature industries, delivering reliable supply, agile support, and practical technical-commercial coordination.

MISSION

- **Provide** selected refractory materials relevant to industrial operating requirements.
- **Support** customers through responsive technical-commercial discussion and supply coordination.
- **Build** reliable partner-based product support and long-term market trust.
- **Grow** MSI with discipline, integrity, and durable industrial relationships.

OUR CORE VALUES

H.E.A.T

H

HIGH STANDARD

We are committed to supplying only premium-grade refractory materials proven to withstand the most extreme high-temperature and corrosive environments.

E

EXPERTISE

We bring deep industry knowledge to every partnership, ensuring our clients receive the best material specifications required for optimal operations.

A

ASSURANCE

We provide peace of mind through a reliable, streamlined supply chain that guarantees your critical materials are delivered safely and on schedule.

T

TRUST

We build enduring, transparent relationships with our partners through unwavering integrity, honesty, and dependable service.

OUR EXPERT TEAM

PT Metro Securo Indonesia (MSI) is supported by industrial, product, and commercial expertise to help customers move from inquiry to practical refractory discussion and supply coordination.

Muhamad Ichlas
TECHNICAL ADVISOR

Industrial background in nickel operations, metallurgical process engineering, project engineering, plant technical evaluation, metallurgical data analysis.

Iqbaluddin Ahmad
SALES CONSULTANT

Brings strong sales & commercial background across RFQ intake, quotation coordination, scheduling, packaging, logistics, and after-sales support for Indonesian industrial customers.

Serina Liu
OVERSEAS MARKETING DIRECTOR

Overseas Marketing Director at **Kerui Refractory®**, focused on supporting international customer communication and refractory selection, production, and delivery from the manufacturer.

OUR SERVICES

We offer comprehensive supply solutions tailored for high-temperature industrial sectors, guaranteeing durability and peak performance.

01

PREMIUM PRODUCTS

Supplying a comprehensive range of refractory materials, including high-alumina bricks, insulating firebricks, castables, and specialized ceramic fibers.

02

MATERIAL SELECTION

Leveraging an extensive network to source specific, high-grade thermal materials required for specialized industrial kilns and furnaces.

03

LOGISTICS & DISTRIBUTION

Managing a highly efficient supply chain to guarantee the safe and timely delivery of heavy refractory materials to facilities across Indonesia.

04

MATERIAL CONSULTATION

Providing expert guidance on material selection to ensure our clients receive the exact refractory specifications needed for their unique thermal requirements.

PARTNER AUTHORIZATION

PT Metro Securo Indonesia (MSI) is the officially authorized representative of **Kerui Refractory®**, appointed to market and supply its refractory products and services throughout Indonesia.

ZHENGZHOU KERUI INDUSTRIAL DEVELOPMENT CO., LTD.

To whom it may concern:

PT. Metro Securo Indonesia
 Jl. Raya Sidosermo Indah No.20
 Kel. Sidosermo Kec. Wonocolo
 Surabaya, Jawa Timur 60239

Letter of Authorization

This is to confirm that the company PT. Metro Securo Indonesia, Jl. Raya Sidosermo Indah No.20 Kel. Sidosermo Kec. Wonocolo Surabaya, Jawa Timur 60239 is an authorised representative of the company KERUI Refractory of the address, Chaohua Industry Zone, Xinmi City 452385, Henan Province, China and can market the products and services of KERUI Refractory throughout the territories of Indonesia.

Yours sincerely,
 KERUI REFRACTORY
